

St. Lawrence County

1997

Adopted Budget

ST. LAWRENCE COUNTY 1997 BUDGET MESSAGE

Preparation of the 1997 TENTATIVE BUDGET has involved a revised budgeting process that was essentially initiated at the conclusion of the budget review conducted by the Board of Legislators in 1995. At that time, the Board expressed frustration in terms of the arrangement of the budget document and the lack of programmatic information by department. The Board also expressed a desire for more accurate or realistic projections of both appropriations and revenues. This new budgeting effort reflects both a philosophical change in budgeting policies and a physical change in the working documents.

The philosophical changes enacted by the budget review committee are three-fold. First, departmental budgets were constructed in a tight, consistent manner such that some special appropriations for programs or equipment were budgeted within a targeted contingency controlled by the Board of Legislators. Both the projections for the current year and the recommended budget reflect this change. Second, forecasts for both appropriations and revenues will be as accurate as possible in order to provide the best possible information to the Board of Legislators. Third, recognition of the fact that the responsibility for determining policies governing the establishment of an appropriate reserve, the maintenance of prudent fund balances and the provision of adequate cash flow resides with the Legislature.

While the format of the actual budget document could not be changed in one year, the legislature has been presented with

a "working" budget document organized such that budgets and staffing for each department are placed together. These budget elements are bundled with department narratives that contain programmatic descriptions, financial information and long-range/capital needs.

The budgeting process utilized in preparing the TENTATIVE BUDGET was also modified this year. Departments were asked to prepare programmatic narratives, accurate fiscal projections, realistic budget proposals and to work with a budget review committee in reviewing both line item finances and/or programmatic or policy issues. The budget review committee has attempted to perform the type of line item review typically conducted by the Board of Legislators in the past in order to free the Board to address broader fiscal policy issues. To help render these discussions meaningful, the Committee has attempted to provide the Board with the best information available about the current and projected financial situation in the County. Due in large measure to the assistance rendered by the department heads and their respective financial staff members, I am able to report that **County costs are projected to increase by 1.39 percent, that the proposed tax levy is projected to increase by 2.72 percent and that the resulting true value tax rate is projected to increase by 2.55 percent.** In addition, there is a net reduction in the budgeted workforce by the voluntary elimination of three vacant payroll positions that are no longer budgeted due to planned staffing changes in various departments.

The budget preparation process benefited significantly by the fact that most departments in the County presented flat budgets or budgets with a projected decrease in County costs. This has allowed me some flexibility in recommending moving ahead with several Board priorities and/or other major initiatives. Included within this budget is a nearly \$500,000 increase in the Highway Department to allow for another bridge renovation project; completion of the telecommunications upgrade, completed acquisition of a badly needed upgrade for the County's financial accounting system, continued use of a facilities capital project account for an air filtering system in the printing department and renovation of the Supreme Court Chambers and a modest expansion of both a targeted contingency (specific items/expenses drawn from departmental budgets) and the general contingency.

There are a number of outstanding or newly created budget issues that I would be remiss not to address within the context of the budget message. First, while the Social Services staff presented a budget which projects a modest decrease in County cost, the net result at the county-level of the welfare reform legislation recently signed into law in Washington is undetermined and the Commissioner of Social Services has urged the County to be conservative in reserving contingency funds for any possible unexpected obligation. Second, the County continues to be concerned about the lack of State payments on certain outstanding financial obligations, most notably within the Pre-K program. In this one program alone, the County received less than 23% of the budgeted State revenue in 1995 with the net result being a carried cost on the order of \$1.2 million. This cost is carried to the detriment of the County's cash flow. Third, there are a number of major Article 7 assessment challenges still pending with the County potentially at risk for substantial settlements and a resultant decrease in overall assessed

valuation. Finally, a number of outside, non-contract agencies are requesting funding increases. I have budgeted these appropriations at levels consistent with last year with the belief that, as a matter of budgeting policy and prioritization, the Legislature should evaluate the merits of each agency and their individual requests.

All of the preceding elements influence the following issue: **the change in budgeting philosophy has resulted in a much "tighter" budget which will likely lead to a dramatic reduction in cash surpluses to be returned to fund balance in subsequent years.** With that in mind, I have recommended a reduction of \$300,000 in the amount of appropriated surplus applied to offset the county costs. I anticipate that further reductions along these lines would continue over the next few years until an equilibrium is established between maintenance of prudent cash reserves and the amount of appropriated surplus applied to off-set the tax levy.

From a budget management perspective, the budget review process has also identified a number of opportunities to further assess and improve the budget development process, to capitalize on the capture of non-local revenues and to develop and implement a corporate fiscal management policy within the County. These opportunities warrant further investigation and will be addressed by the management staff. A few of the items identified in the budget review process, include :

- conducting an assessment of the county-owned fleet of vehicles to track utilization, maintenance and replacement issues.

- establishing a corporate fiscal management policy and strategy to coincide with transition to the new accounting system. This would include the following:
 - review trends with respect to the receivables being carried on the books in a number of departments and to identify means by which to address delinquent accounts;
 - explore the use and controls on payroll accounts for temporary and part-time employment and overtime, including establishment of procedures to avoid double-booking of appropriations;
 - review the feasibility and the accounting benefits of establishing a separate fund for management of multi-year community development grants;
 - assess the true costs of programs by accurately accounting for fringe benefit costs in each program and department;
 - develop a long-range planning process to help in the preparation and prioritization of capital projects;
 - prepare an end-of-year analysis and report on the financial condition of the County;
- reviewing transportation services offered by the County (including both contract hauling and the volunteer drivers network) to identify ways to reduce costs, increase access and/or improve efficiency;
- establishing some mechanisms for cost control on the Pre-K program and working with elected officials to provide for adequate State funding of the program;
- evaluating the financial ramifications of leasing versus purchasing of major office equipment to determine if competitive, comprehensive contracts for purchase and/or service would yield savings due to economies of scale.

This budget reflects the considerable work and exceptional cooperation received from the County's department heads and their respective fiscal staffs. I want to also recognize the contributions of Robert McNeil, Susan Briggs, Bruce O'Shea, Raymond Fountain and Keith Zimmerman, all of whom worked long hours and provided exemplary service on the budget review committee. My thanks are also extended to Phyllis McCall and Tammy Girard of the Board's Office, Natalie Hill and the Central Services staff, Connie Fountain from the Payroll Office, Natalie Haggert from the Economic Development Office and to Jane Powers and the staff of the Real Property Office for their contributions to the budget development. Lastly, I want to offer my thanks to Richard Cassara and Susan Flanagan from Central Printing.

Presented to the Board of Legislators on October 7, 1996.

Donald Brining - County Administrator

The Tentative Budget was modified and adopted by the Board of Legislators on November 25, 1996
