

New York State Department of Environmental Conservation  
Region 6 Headquarters, State Office Building, Watertown, NY 13601

315-785-2238

Thomas C. Jorling  
Commissioner

October 3, 1990

Mr. Ed Salamacha, Owner  
Hammond Enterprises  
Main Street  
Hammond, NY 13646

Dear Mr. Salamacha:

An investigation by representatives of this Department revealed that although your petroleum bulk storage tanks were required to be registered by December 27, 1986, you failed to register them until June 6, 1988. In addition, these same tanks were required to be tightness tested by December 27, 1987, and to date, we have yet to receive any test results from you. Please be advised that these actions constitute violations of the New York State Bulk Storage regulations.

To settle the matter of these violations without litigation, I have prepared the enclosed Consent Order which provides for a civil penalty in the amount of \$6,000 with all but \$2,500 suspended provided you comply with its terms, and which requires all tanks at the facility to be either tested or permanently closed within sixty (60) days.

If you choose not to sign the Order, further legal action including the conduct of an Administrative Enforcement hearing may be taken against you. If you are determined to be in violation of the above regulations at such hearing, you could be liable for a civil penalty of up to \$25,000 per day for each violation.

Please read the Order carefully and if it meets with your approval, sign it before a notary public and return it to this office by October 26, 1990.

Your anticipated cooperation is appreciated.

Sincerely,

Thomas J. Fucillo  
Assistant Regional Attorney  
Region 6

STATE OF NEW YORK : DEPARTMENT OF ENVIRONMENTAL CONSERVATION  
In the Matter of the Violation of Environmental Conservation  
Law Article 17 by:

HAMMOND ENTERPRISES  
Ed Salamacha (Owner)  
Hammond (V)  
St. Lawrence (Co.)

Respondent.

CONSENT ORDER  
R-6-0980-90-08

WHEREAS:

1. Pursuant to Article 17 of the Environmental Conservation Law (ECL), the Department of Environmental Conservation (Department) has responsibility for the regulation of petroleum bulk storage facilities in the State of New York.

2. In accordance with that authority, the Commissioner of Environmental Conservation has promulgated 6 NYCRR Parts 612 and 613 which include the following requirements:

a. Within one year of the effective date of these regulations (December 27, 1985), the owner of any petroleum storage facility having a capacity of over eleven hundred gallons must register the facility with the Department (6 NYCRR §612.2(a)(1)).

b. The owner of any underground petroleum storage tank and connecting piping system must have the tank and pipes periodically tested for tightness within two years of the effective date of these regulations if such tank is of unknown age or due for an initial test within the first year of the effective date of these regulations (6 NYCRR

§613.5(a)(1)(ii)).

3. Respondent owns Hammond Enterprises located on Main Street in the Village of Hammond, St. Lawrence County, New York (the facility). Respondent's facility maintains petroleum bulk storage tanks with an aggregate storage capacity in excess of eleven hundred gallons.

4. A search of Department records revealed that Respondent registered the facility on June 6, 1988, eighteen (18) months after the date required by 6 NYCRR §612.2(a)(1).

5. Respondent has thus violated 6 NYCRR §612.2(a)(1).

6. In addition, the search and subsequent communications with the Respondent revealed that Respondent did not test its petroleum bulk storage tanks which are of unknown age and submit the test results to the Department by December 27, 1987. To date, Respondent has not tested its tanks.

7. Respondent has thus also violated 6 NYCRR §613.5(a)(1)(ii).

8. ECL Section 71-1929 provides for a maximum civil penalty of \$25,000 per day for each violation of ECL Article 17 or the regulations promulgated thereunder.

9. The parties desire to enter into this Order to avoid litigation of this matter and to bring about specified remedial action.

10. Respondent hereby waives its right to a hearing as provided by law and agrees to be bound by the terms of this Order.

NOW, THEREFORE, having considered this matter and being duly advised, it is ORDERED that:

I. Immediately upon the effective date of this Order, Respondent shall become obligated to pay a civil penalty of \$2,500.00. \$750.00 shall be paid within two weeks after receipt of a conformed copy of this Order. Payment shall be made to the Department of Environmental Conservation offices, 317 Washington Street, Watertown, New York 13601, attention Regional Attorney. The remaining \$1,750.00 shall be suspended, and thereafter extinguished; provided, however, the Department may vacate the suspension and assess the penalty, or any part of it, for a violation of this Order after giving Respondent written notice with an opportunity to submit a written explanation to the Department.

II. Within sixty days of the effective date of this Order, Respondent shall have a test for tightness performed on each underground storage tank at the facility and will submit said test report to the Department no later than thirty (3) days after its performance. In addition, Respondent shall periodically test all tanks thereafter in accordance with the requirements of 6 NYCRR §613.5(a)(1)(iv). Any tank at Respondent's facility which is shown by a tightness test to be leaking must be reported by Respondent within two hours of discovery of such leak. Such notification shall be made in accordance with 6 NYCRR

§613.5(a)(4).

In the alternative, by the same date, Respondent shall permanently close in accordance with 6 NYCRR §613.9, each petroleum storage tank at its facility which has not been tested.

III. All submissions required under Part III of this Order shall be sent to:

Donald I. Johnson  
Assistant Sanitary Engineer  
Department of Environmental Conservation  
Utica State Office Building  
207 Genesee Street  
Utica, NY 13501

IV. Respondent shall within 15 days following a written notice of a violation of this Order and demand for payment from the Department, pay to the Department a stipulated penalty in the amount of One Hundred Dollars (\$100) for each violation of this Order or any provision thereof, including scheduled dates, plus an additional One Hundred Dollars for each day such violation continues or recurs. The Department shall not be precluded by this Consent Order from taking any action authorized by law and the Department may seek the sanctions provided in the Environmental Conservation Law in addition to assessing stipulated penalties as set forth in this Order. Should the Department seek penalties and/or sanctions beyond those stipulated in this Order, Respondent shall be provided all rights mandated by applicable law and regulation.

V. The effective date of this Order is the date on which the Commissioner or his representative signs this Order.

VI. Nothing in this Order shall be construed as preventing the Department from collecting regulatory fees where applicable.

VII. A violation of this Order is remediable as allowable by law.

VIII. To ensure compliance with this Order, the ECL, and rules and regulations thereunder, authorized representatives of the Department shall be permitted access to Respondent's premises in order to make inspections to see that Respondent is in compliance.

IX. This Order does not absolve Respondent from any legal liability or responsibility pursuant to the Navigation Law for compensation or penalties relating to any petroleum spill at the facility.

X. No change in this Order shall be effective except as set forth in written Order of the Commissioner: (a) upon written application by Respondent and with specific justification for the relief sought, or (b) upon the Commissioner's own findings after an opportunity to be heard has been given to Respondent, or (c) pursuant to the summary abatement provisions of the ECL.

XI. This Order is binding upon Respondent, its agents, employees, successors, assigns and all persons, firms and corporations acting subordinate thereto.

Dated: Watertown, New York

Re: PBS No. 461830, Hammond Enterprises

Dear Mr. Salamacha:

Enclosed is a Petroleum Bulk Storage Application form to be used for notification of a substantial facility modification. The Department must be notified of substantial facility modifications pursuant to 6NYCRR 612.2(d) which states:

"Within thirty (30) days prior to substantially modifying a facility, the owner must notify the Department of such modification on forms supplied by the Department."

I have also enclosed a copy of 6NYCRR 613.9 for your information which deals with the requirements for permanent closure of tanks. If you have any specific questions regarding the closure procedure, please call me at (315) 793-2554.

Sincerely,

Donald I. Johnson  
Environmental Engineer 1

Sept. 23, 1988

Dear Sirs:

Your letter of June 30, 1988 was delivered today. I have no idea where it has been in the meantime. at any rate - I have signed the check and confirmed the size of tank 2 as being 1000 gallons.

Thanks

David B. Wiest

P.S. We do not own the tanks - we simply agreed to handle the registration for the owner.
