

What's Going Well

Maternal and Child Health

Breastfeeding rates are above state goals.
Childhood immunization coverage meets the NYS 2030 target.

Mental Health & Substance Use

Naloxone distribution and access to buprenorphine for opioid use disorder are strong, showing good harm-reduction efforts.

Economic and Social Factors

86% of adults reporting being **food-secure** in the past year.

Chronic Disease & Prevention

- Fewer children visit the **ER for asthma** compared to the state average.
- **Avoidable hospitalizations** among adults are lower than the state benchmark.
- Most adults have a regular **healthcare provider**.
- Physical activity rates among adults are close to the state benchmark.
