**Recycling – It's the Law!**

**Since 1991**

## Single Stream Recycling – Here's How It Works

### NOW ALL RECYCLABLES ITEMS CAN BE MIXED TOGETHER FOR COLLECTION AND/OR RECYCLING PURPOSES

- All recyclable items – paper, plastic, metal and glass – need to be mixed together in a single tote, bin or clear plastic bag. Transfer station users are encouraged to use totes or bins less than 35 gallons in capacity for collecting and transporting their recyclables. **NOTE** - Check with you hauler on what they want you to use to store your recyclables for collection.
- Recyclables should be empty and clean – rinse away all residue – remove and recycle metal caps & lids – it is not necessary to remove labels or metal and plastic rings – breakdown / flatten cardboard boxes as practical.
- Plastic bags are NOT recyclable. Any transfer station user or hauler using clear plastic bags for collection **MUST** debag their recyclables. No string, no trash, no green waste and no plastic bags or plastic wrap of any kind should be mixed with your recyclables.

### Paper

- ✓ Newspaper & Inserts
- ✓ Junk Mail & Circulars
- ✓ Magazines & Catalogs
- ✓ Phone & Paperback Books
